## About the Game

WhiskeyMemory is a Memory Card Game, where observation and memory are key to success.

## Gameplay

On each turn, a player turns over two cards and scores a point if the image is the same on both cards. When a player turns over two cards that do not match, those cards are turned face down again and next round begins.

## Winning

When all the pairs have been found, the player wins.

It requires observation, concentration and a good memory to win.
